## *Project Description*

CLIENT: Sharp Architects, Inc  
Lisa Sharp  
815-517-1050

LOCATION: McHenry, Illinois

COMPLETED: 2011

DESCRIPTION: The McHenry Community Health Center is a new medical clinic building operated by a not-for-profit organization; Greater Elgin Family Care Center. A new facility was needed to serve to the growing needs of McHenry & the surrounding area.

In addition to the topographic survey & site design, the site required special attention to the site grading for ADA accessibility. Also, because of a & a high pressure gas main that runs through the site Wendler coordinated with the gas company to meet all of their safety requirements for design & construction activities.
