

# WIND ENERGY PROJECTS THROUGHOUT ILLINOIS & WISCONSIN

## *Project Description*

### **Crescent Ridge I - Bureau County, IL**

Provided Surveying Services to establish property lines for setback compliance, provided construction layout, prepared pre-construction and post-construction ALTA surveys, and provided post-construction road damage assessments. Client: Eurus Energy.

### **Butler Ridge—Dodge County, WI**

Provided Surveying and Civil Engineering Services to establish property lines, right-of-way lines, dwellings, and locate wells and septic systems for setback compliance, prepare grading plans for substation, provide construction layout, and prepared pre-construction and post construction ALTA surveys. Client: Eurus Energy, Babcock & Brown, and Nextera.

### **Big Sky - Lee County, IL**

Provided Surveying and Civil Engineering Services to prepare grading and storm water detention plans for two substations and prepare IDOT temporary entrance permits, and provide construction layout for an 18 mile transmission line. Client: Midwest Energy.

### **Crescent Ridge II—Bureau County, IL**

Providing Surveying, Civil Engineering, and Environmental Services to establish property lines, right-of-way lines, and dwellings for setback compliance, prepare exhibits for local permitting, prepare a Phase I Environmental Assessment, and prepare engineering plans for upgrading an existing township road. Client: Eurus Energy and Babcock & Brown.

### **Lancaster—Stephenson County, IL**

Providing Surveying Services for establishing property lines, right-of-way lines, and dwellings for participating owners to facilitate micro-sighting and checking setback compliance. Client: Navitas.

### **Minonk—Woodford & Livingston County, IL**

Providing Surveying Services for establishing property lines, right-of-way lines, and dwellings for participating owners to facilitate micro-sighting and checking setback compliance. Client: Navitas.

### **Walnut Ridge—Lee & Bureau County, IL**

Providing Surveying Services for establishing property lines, right-of-way lines, and dwellings for participating owners to facilitate micro-sighting and checking setback compliance, and providing boundary and design surveys for substation design. Client: Midwest Energy.

### **Lee-DeKalb—Lee & DeKalb County, IL**

Providing Surveying, Civil, and Structural Engineering Services to provide preconstruction evaluation of existing drainage structures, provide pre-construction condition analysis of exiting roads within the project, and provide a geo-spatial asset management tool developed by Wendler to manage the road a structure data. Client: Nextera through their contractor, D.H. Blattner.
