Project Description

CLIENT: City of Dixon, Illinois
Mr. Shawn Ortgiesen, City Engineer
815-288-1485

LOCATION: Along the Rock River in Downtown Dixon

PROJECT COST: \$5,000,000

COMPLETED: 2009

DESCRIPTION: This federally funded project includes a river-front plaza area with multi-use paths along the south bank of the Rock River in the downtown area. Work includes construction of a concrete bicycle/pedestrian path along the river's edge and a downtown park space.

Access ramps, stairs, and seating areas are provided through the plan to facilitate disabled/pedestrian/bicycle traffic movements to and from the lower path level to the street.

The street improvements include widening of existing sidewalks, drainage improvements, and reconfiguration of parking areas.
